

Juan and Tashana: Please review and give me any thoughts and suggestions you have. Also, I think it would be good if we could all caucus after the January program to review this with the Westfield and St. Stephen's people.

Tentative Schedule for Aspen Riverpark Superkids

* Feb. 20th - NOTE: This is a change from the original date, and theme. Craft: making birdfeeders, and hanging them on the trees in center court of the building (have to check this with Sylvia)

* March 20th - Giant birthday party for all kids - party games

* April 17 - Field trip. As of now, it is planned for Liberty Science Center (unless someone has a better idea, remembering the diverse ages of all the kids)

May 22 - Suggestions are 1)walking to Riverbank Park as a group to discuss work going on there 2) Presentation by N.J. Waterwatch, a group which does a lot of work with kids and environmental issues. Combine this with planting some flowers around the buildings. Check with Sylvia

June 19th - Talent Show
